

## World History A – Greek and Roman Legacies Project

**Point value:** This project is worth 30 points toward your Quarter 3 History grade

**Due date:** March 10, 2015

**Background:** This project is based off of information you learned in Units 9 and 10 on your Online School. Unit 10, Lessons 19 and 20 are specifically geared toward Greek and Roman Legacies, and there are student pages that go along with these lessons that will help you organize your thoughts and ideas for this project.

**Directions:** You will make a power point presentation about the contributions and legacies of Classical Greece and Rome to modern Western civilization.

- Your power point presentation should contain a minimum of 6 slides, each about a different legacy or contribution from Classical Greece or Rome.
- Each slide must include:
  - Name of the legacy or contribution
  - Where it comes from – Greece or Rome (and a person, if applicable)
  - A description of the legacy or contribution
  - An explanation as to how the legacy or contribution has influenced society, how the world has benefited from it, how it's used today, etc.
- You may design the slides any way you would like and add pictures, change the background, etc. if you wish. Feel free to be creative! Just be sure you include the information in the bulleted list above on each slide.
- Use your textbook and Grolier's online encyclopedia to find information – you should not need to go outside of these two resources to find the information you need. In your textbook, look to pages 429-435 for information.
- Submit your project in the dropbox in Sapphire.
